50X1-HUM

1. On 10 - 12 June 1953, the hydraulic pumps at the Rudolf Pit at Boden (N50/P36), near Sokolov (N51/P58), were interfered with, resulting in the complete flooding of the mine.
2. This pit has a monthly output of 40,000 tons of crude brown coal. Of the total, half has in recent months been supplied to the Stalin Works near Most. The mine is expected to be out of action for four to five months.
